Easily offload content to your Android smartphone, tablet, or other micro-USB device

Capturing life in action? Easily offload content from your sports camcorder, aerial camera, or other microSD™ device to your micro-USB devices with the Lexar® M1 microSD™ Reader. This small, portable reader features a micro-USB connector and provides easy transfer of files from your microSD card, wherever adventure may take you.

Save time by offloading on the go. With its micro-USB connector, the reader makes it easy to move all your favorite content to your micro-USB devices on the go. So whether you're offloading stunning action photos or epic adventure video, it's got you covered.

micro-USB connector

View and play back photos and videos—anywhere.

The M1 microSD Reader is easy to take on the go, so you can view and play back content from your micro-USB enabled devices, wherever you are.

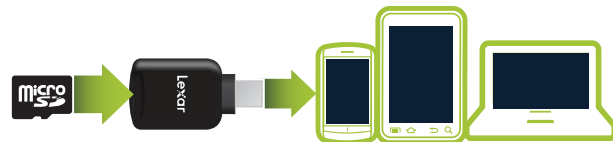

Expand the memory of your devices. By offloading your files, you can store more on your microSD card, giving you the extra space you need to capture more of the content you crave.

Multitasking made easy. Made for more than just offloading adventure, the reader also provides a simple way to expand the memory of your device, swap content between your micro-USB devices, or archive your favorite content.

Small, portable design. With its small footprint, you can put it in your pocket and go. And the micro-USB connector fits with most cases, providing simple plug-and-play functionality.
