

Professional Workflow HR1
(USB 3.0 hub)

THUNDERBOLT.
Professional Workflow HR2
(Thunderbolt™ 2 and
USB 3.0 hub)

Assorted card readers

Two-port USB 3.0 hub

Product Line Highlights:

- Transfers images and video from multiple memory cards at once
- Hubs leverage Thunderbolt™ 2 or USB 3.0 technologies for high-speed transfer of RAW images, high-res photos, and HD, 3D, and 4K video
- Readers support today's latest card formats—SDHC™/SDXC™ UHS I and UHS-II, CompactFlash® UDMA 7, XQD™ 2.0, CFast™ and CFast 2.0 (Thunderbolt or USB 3.0), and microSDHC™/microSDXC™ UHS-I and UHS-II
- Two-port USB 3.0 hub allows you to connect USB flash drives, readers, or charge devices
- Innovative, modular design
- Use the card readers and USB 3.0 hub with the Workflow HR1 or HR2 hub or on the go
- Two-year limited warranty on all Workflow products

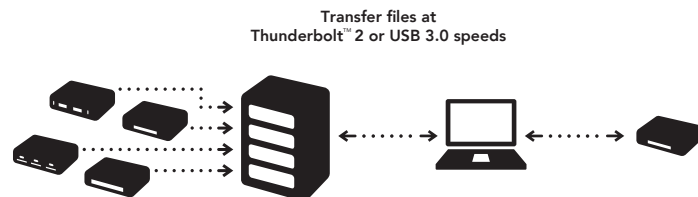

Take control of your workflow

The Lexar® Professional Workflow line of products includes your choice of two four-bay hubs, along with a selection of card readers and a two-port USB 3.0 hub. Its innovative, modular design lets you create a custom setup, while its high-speed performance lets you offload your work, faster. Pick and choose the right combination for your needs, and take control of your workflow.

Transfer images and video from multiple memory cards at once. Mix and match any of the six Professional Workflow readers (supporting SD™ UHS-I and UHS-II, CompactFlash® UDMA 7, XQD 2.0, CFast™ and CFast 2.0—USB 3.0 or Thunderbolt, and microSD™ UHS-I and UHS-II formats) with the four-bay Professional Workflow HR1 or HR2 hub to create your ideal setup. Whether you choose four of the same format or mix and match your card readers, the solution lets you transfer your images in a single click.

Customize your workflow with an innovative, modular design. Whether you're a pro photographer or videographer or an adventure seeker using a sports camcorder or aerial camera, it's easy to create your custom workflow setup. The Professional Workflow line includes your choice of a USB 3.0 or Thunderbolt™ 2/USB 3.0 four-bay hub, six card readers, and a two-port USB 3.0 hub. And for added versatility, you can remove each module from the HR1 or HR2 hub for individual use on the go.

Boost productivity by connecting more devices. Make multitasking a breeze by adding the Professional Workflow UH1 to your lineup. This two-port USB 3.0 hub allows you to connect USB flash drives or readers to transfer files, or even charge devices. When used with the HR1 or HR2 hub, you can mix and match with Workflow readers, or fill the bays with multiple UH1 hubs to greatly improve productivity. With USB 3.0 performance, it provides quick file transfer and a convenient way to increase your number of available USB ports. It's also backwards compatible with USB 2.0 devices.

Offload your work, faster. The readers and hubs leverage USB 3.0 technology for high-speed performance, while the Professional Workflow HR2 hub is also designed to deliver next-generation Thunderbolt™ 2 speeds. Thunderbolt 2 technology gives photographers and videographers the power to quickly transfer 4K video and other large media files, at up to twice the speed of Thunderbolt and up to 4x the speed of USB 3.0 devices.* Also, the hub is fully backwards compatible with Thunderbolt and USB 2.0 (at slower speeds), while using the same cables and connectors. This high-performance option lets you offload your work, faster.

Products (sold separately):

Hubs:

Lexar® Professional Workflow HR1
(four-bay USB 3.0 hub)

Lexar® Professional Workflow HR2
(four-bay Thunderbolt™ 2/USB 3.0 hub)

Readers (work with either HR1 or HR2 hub):

Lexar® Professional Workflow SR2
(SD™ UHS-II USB 3.0 reader)

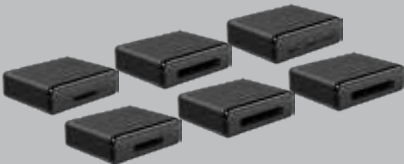

Lexar® Professional Workflow CFR1
(CompactFlash® USB 3.0 reader)

Lexar® Professional Workflow XR2
(XQD™ 2.0 USB 3.0 reader)

Lexar® Professional Workflow CR1
(CFast™ 2.0 USB 3.0 reader)

Lexar® Professional Workflow CR2
(CFast™ 2.0 Thunderbolt™/USB 3.0 reader)

Lexar® Professional Workflow UR2
(three-slot microSDHC™/microSDXC™
UHS-II USB 3.0 reader)

USB 3.0 Hub (works with either HR1 or HR2 hub):

Lexar® Professional Workflow UH1
(two-port USB 3.0 hub)

Simple setup and use. Simply plug the readers or USB hub into the Workflow HR1 or HR2 hub and start transferring files. It's that easy. Also, the Professional Workflow HR2 hub provides two Thunderbolt 2 ports and one USB 3.0 port, making it easy to daisy-chain with your existing setup. Having two Thunderbolt 2 ports also allows you to place the hub anywhere in your lineup of other Thunderbolt devices to create a unique, customizable setup. The hubs help you eliminate cable clutter and take control of your workflow.

Future-proof your workflow setup. The modular design of the Professional Workflow line of products makes it adaptable to changing technology. As Lexar introduces new card reader formats and other modules for this system, you'll be able to swap in new products to meet your growing and changing needs.

Add storage to your workflow solution. The Professional Workflow line of products easily integrates with the Lexar Portable SSD, adding a backup capability to your workflow solution. The high-speed performance of this sleek, compact drive makes quick work of storing files, and its LED capacity meter lets you check storage space at a glance.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

*Speed claims based on reported Thunderbolt 2, Thunderbolt, and USB 3.0 specifications.
