Protection

Store and share quickly with USB 3.1 speeds. Quickly store and access your content anywhere with the Lexar Portable SSD. This sleek, compact SSD provides impressive performance on the go, with speeds up to 550MB/s read and 400MB/s write—up to four times faster than traditional external hard drives.*** This makes it easy to quickly access, move, or back up all your favorite movies, music, photos, and files. Available in 240GB and 512GB capacities.

Sleek, Slimline design and exceptional durability. Showcase your discerning style with the sleek, premium design and brushed aluminum finish of the SL100 Portable SSD. With its small, slim size, you can slip it in your pocket and go. And unlike traditional drives, it has no moving parts, so it provides exceptional resilience to harsh temperatures and vibration.** It also includes an LED activity light, so you know when your file transfer is done.

Securely protect your files. Looking to protect personal information, financial records, or other sensitive files on the go? The SL100 SSD includes DataVault™ Lite software, an advanced security solution with 256-bit AES encryption to help protect your essential files against corruption, loss, and deletion. Easily create a password-protected vault that automatically encrypts data. And for peace of mind, files that are deleted from the vault are securely erased and can't be recovered.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.rely erased and can't be recovered.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

*USB 3.1 Gen 2 required for up to 550MB/s read transfer, write transfer speeds lower. Speeds based on internal testing. Actual performance may vary.

**Temperature resistant (0°C to 70°C) and vibration resistant (7-800Hz, 3.08Grms, 30min/axis(X,Y,Z)) Based on internal testing. Actual performance may vary.

***Comparison based on internal testing. Actual performance may vary.

NOTE:

Security safeguards, by their nature, are capable of circumvention. Lexar does not guarantee data will be 100% secure from unauthorized access, alteration, or destruction.

To ensure compatibility and best performance, please visit lexar.com/downloads to download the latest USB 3.1 driver. Actual usable memory capacity may vary. 1GB equals 1 billion bytes..
