- Auto-rotates images to display portrait and landscape shots
- 32GB built-in storage holds up to 40,000 photos¹; add an SD card or USB drive for more

Memories, Now in Stunning 2K

Bring friends and family from around the globe closer with the pexar frame. Share photos and videos via the internet in superior 2K display quality while your information remains private and secure. With easy setup, it is user-friendly for everyone, making it the ideal gift for displaying photos and videos. Powered by Lexar, a brand you know you can rely on.

Extraordinary Clarity. The 2K resolution touchscreen serves up vibrant visuals on a stunning 11-inch display. Additionally, the nano-texture, anti-glare screen filters out distracting reflections from any angle while a sleek thin-bezel design with a magnetic stand supports both portrait and landscape implementation.

Share Moments within Seconds. Simply plug it in,¹ connect to Wi-Fi, and use the Frameo app to add photos and videos from your phone to the frame within seconds, privately and securely.

Multiple Ways to Easily Share Photo. Effortlessly share pictures and videos to your frame from your smartphone,² USB Flash Drive,³ SD card, or computer. Compatible with both iOS and Android systems.

Private, Secure, Worry-Free Storage. With built-in 32GB storage, you can store over 40,000 600KB-photos. Add an SD card or USB flash drive to expand capacity up to 1TB.⁵ Also, our frame is GDPR-, CCPA- and PSTI-compliant.

Keeps Family Close. Invite family and friends to share photos and videos and tap photos to react and send smiles from miles away.

Smart and Useful. The frame also features auto photo rotation to adapt to portrait and landscape shots, weather information, a clock, and sleep mode.

pexar is a brand by Lexar, a leading memory technology innovator. pexar uses the latest in imaging, memory and storage technology to preserve and share all of life's best moments. Its first product, the pexar digital picture frame, offers a new way for memories to flourish and inspire creativity.

¹ The frame needs to be connected to a power source for use. The product itself does not contain a battery.

² Photos and videos can be shared through the connected Frameo app without being in the same Wi-Fi environment as the frame.

³ USB-A supports USB flash drives only; USB-C supports USB-C data cables only for easy file transfers from your computer.

⁴ A Wi-Fi connection is required to upload photos and videos from your phone. Once uploaded, they can be viewed offline.

⁵ 1TB expandable storage requires an SD card or a USB Flash Drive, sold separately. Lexar is not liable for any loss of data or images.
